VI. ASME SUPPORTS THE FOLLOWING DEFINITIONS

- A. Diversity is “the ways in which we differ as individuals or organizations, and the commonalities and similarities that justify and motivate all people and entities to work collaboratively together in order to achieve mutually beneficial outcomes.” Diversity encompasses Diversity of Experience (including personal and professional experiences, family and lifestyle backgrounds, and socioeconomic backgrounds), Diversity of Thought (including work styles, personality types, and skill sets), and Diversity of Demographic Groups (including the “protected classes” listed in Society Policy P-15.9 Section I.A.) Diversity that is recognized, valued and most importantly, strategically managed within and without an organization can drive successful outcomes and business results.
- B. Equity is ensuring fair and impartial treatment, access, opportunity, and advancement for all people. Equity takes into account disparate needs, conditions, and abilities, with particular attention to historically underserved and underrepresented groups. Achieving equity requires the identification and elimination of barriers to full participation and the correction of imbalances that disadvantage some groups.
- C. Inclusion is creation of opportunities and the elimination of barriers to allow all people to participate in and contribute to ideation, planning, projects, programs, processes, teams, organizations, social activities, fun or any other meaningful opportunity, that helps achieve successful outcomes.
- D. Strategic Diversity is the effective deployment of strategies that leverage the strengths of all people and/or of an organization in order to operate successfully within a diverse marketplace or within a uniquely different society, institution, partnership or similar entity.

E. Managing Diversity is the ability to effectively inspire and enable all people to

- 1) align to a common vision
- 2) communicate effectively and assure understanding
- 3) know and accept what is of value to others
- 4) leverage the strengths of others and trust their commitment to deliver as agreed, and
- 5) appropriately recognize and celebrate successes often.

F. Equitable Access is defined as providing the same (or otherwise equitable) resources to all people, particularly those with diverse identities. These resources include physical facilities, methods of communication or communication channels, other institutional structures within ASME, and others. Equitable access specifically includes the following: reasonable accommodations for people with disabilities, respectful and dignified access to restrooms consistent with a person's gender identity, and consideration of the needs of non-English speakers when designing policies or events.
