

John J. Montgomery Award for Distinguished Innovation in Aerospace

RULES OF AWARD

Form of Award

Plaque and \$1000 honorarium

Achievement Recognized

The Montgomery Innovation Award will recognize the outstanding contribution of an individual engineer residing in the international community who has researched, designed or developed (or any combination thereof) new technologies or equipment for the aerospace industry, i.e., propulsion, aerospace structure/materials, stability and control, etc. As a professional in industry, each recipient will have significantly contributed to aeronautics and astronautics, and the engineering community at large. Awardees will have demonstrated originality, forward-thinking, and a thirst for innovation. The recipient will have helped to revolutionize the industry and open the door for greater progress in the field.

Nominating Committee

The award is administered by the Aerospace Division Executive Committee. The Executive Committee will form a Montgomery Award Committee consisting of six members, each serving a term of three years; the terms of two members expire each year in June. Members are named by the Division Executive Committee by April 1 of each year. The Aerospace Division Chair shall appoint its chair from the six current members.

Review Process

The Awards Committee solicits nominations, reviews all nominations received by October 1 and makes a recommendation to the Aerospace Division EC by October 15.
